INTERNSHIPS

Web developer at *HYPRACTIF* @ Montréal   2015
Development of a free-sharing art website (mostly back-end w/ **Laravel**), **web-design & integration** of several showcase websites and prototyped a **shopify** e-commerce website

Web developer at *ORANGERINE* @ Montréal   2015
Development & integration of the website dedicated to the Quebec Manufacturing Fund

Web developer at *B4BLUE* @ Paris   2015
Upgrade of 2 intranet billing software (w/ Symfony2 & CodeIgniter) + collaborative development with a foreign team

PROJECTS

Aloha, *freelance*   2015 - present
Built a **complete billing & invoicing web app** with **Laravel** as part of mine freelance projects. Bills & pdf generation, hoursheets, statistical graphics, contract management, in-built updater (synced through git).

Honi, *school/startup*   2016 - present
Currently in charge of all **server-side** components and the **swift development** of Honi, an app that aims to add some spices in couples relationship, through missions and pledges.

Docopro, *school*   2014 - 2015
Leading 3 technicians into the conception of a web app dedicated to co-ownership associations

Flap.io, *personnal*   2014
Made a **multiplayer game** based on the Flappy Bird app with the help of HTML5 canvas, NodeJS, Socket.IO & MongoDB
